### PRODUCT DESCRIPTION

**AJS 1923 349 CC SIDE VALVE MODEL B 1 FRAME# 17427 ENGINE# 26901**

The four Stevens brothers had been in motorcycle manufacturing since the final years of the 19<sup>th</sup> century, but only in 1911 their first complete "AJS" motorcycle, a 298 cc twospeeder, was marketed.

For the 1912 season their first V- twin, the model D, was brought out.

In the 1914 Junior TT a magnificent first and second place was scored.

The company moved to new premises at Graiseley House, Wolverhampton.

The 1915 range consisted out of three models; the sporty 2 <sup>3</sup>/<sub>4</sub> HP single, the medium weight 4 HP ( 550 cc) twin model A and as top of the range the 6 HP model D.

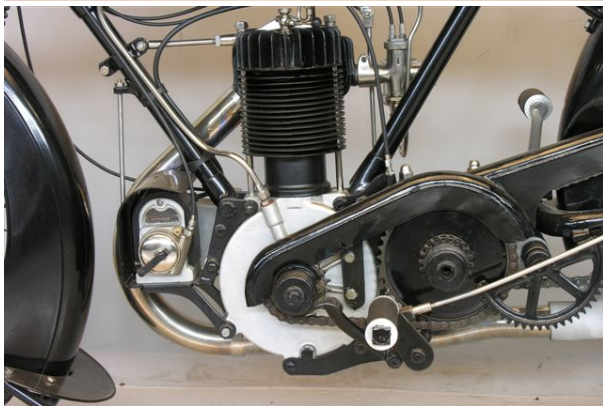

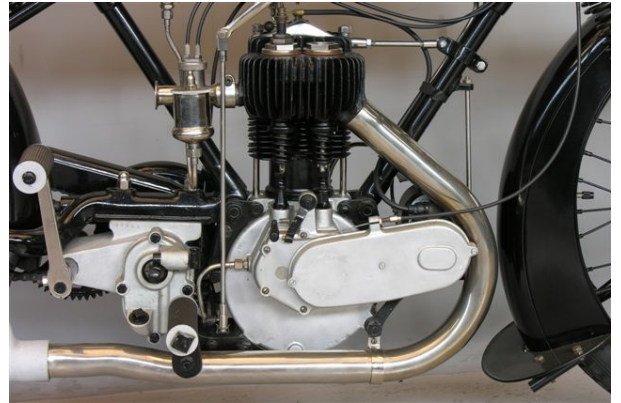

In the following years both the single and the big twin became very popular machines.

In the 1923 range two side valve singles were offered, a Standard Touring Model (B) and a Standard Sporting Model. ( B 1)

The machine has a quickly detachable rear wheel and internal expanding front and rear brakes, which is quite advanced for 1923. This practical vintage motorcycle has been restored with great care.
