## PRODUCT DESCRIPTION

### **Alcyon 2HP 250cc ca. 1906**

The Paris-built Alcyon make introduced its first model in 1904, and soon after won a reputation for their motorcycles.

The Alcyon we can offer is one of the few remaining examples from the beginning period of motorcycle manufacturing.

The machine has coil ignition, automatic inlet valve, hand oil pump and spring front forks. The unrestored Alcyon is waiting to be carefully restored; it will certainly be a rewarding restoration.
