SOLD

ANTIQUE MOTORCYCLES - ACCESSORIES AND RELATED ITEMS

PRODUCT DESCRIPTION

Ariel 1915 ca.700cc V-Twin.

Ariel's first step towards motorcycle production was made in 1898 with the production of quadricycles, driven by De Dion Bouton single cylinder engines.

Later the Ariel two-wheelers got engines from Kerry and around 1910 White and Poppe, Abingdon King Dick and Motosacoche power sources were used.

The Ariel we offer here is equipped with a ca. 700cc Abingdon King Dick engine.

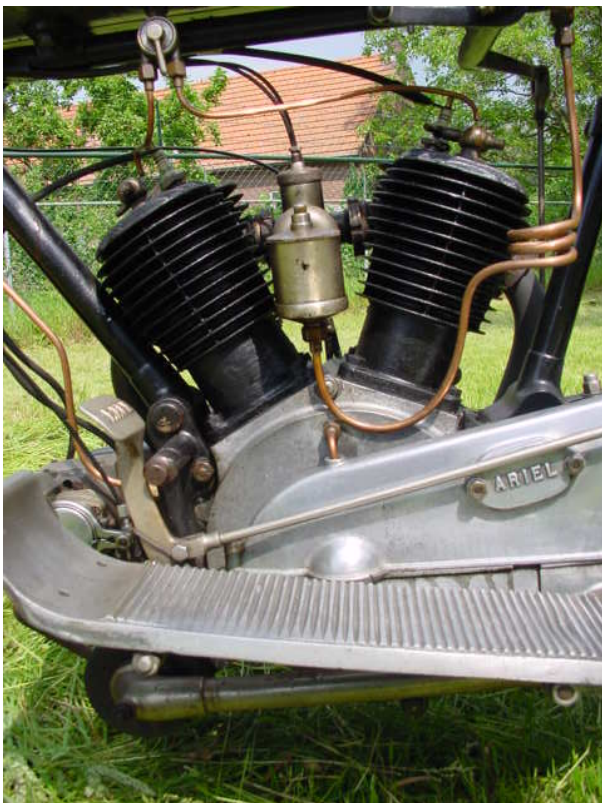

It has a 3 speed gearbox with foot operated clutch and belt drive to the rear wheel.

The saddle is connected to a spring frame on the saddle tube, which gives a comfortable ride.

This Ariel V-twin is in good, used condition, fully complete and ready for any trouble-free ride.
