PRODUCT DESCRIPTION

Ariel 1945 350 cc OHV model NH "Red Hunter" frame AP 3768 engine BK 3065

The basics of the "Red Hunter " could be traced back to a Val Page design, but the name first came into use in the 1932 programme that had been designed by Edward Turner.

The new sporty OHV models in 250, 350 and 500cc capacity were very good-looking, reliable and sturdy. They became great performers in off-road competition work as well as for fast touring and were produced till 1960, when Ariel management decided to concentrate on two strokes and phase out four stroke production.

This 1945 model is equipped with Burman gearbox and is in good unrestored condition.
