PRODUCT DESCRIPTION

Automoto 350 cc side valve 1930 frame # 32805 engine #20246

Automoto was one of the pioneer French makes: bicycle production started in 1895 in St. Etienne, and the first motorcycles and tricycles came on the market in 1899.

Initially own brand engines were employed, in later years Automotos were powered by engines made by Zurcher, Chaise, JAP and Villiers to name a few.

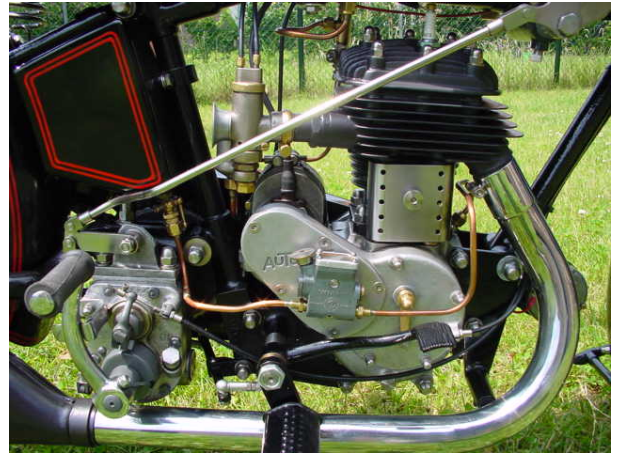

The machines were very sturdy and of great durability.

This particular model has an outside flywheel engine, Sturmey Archer 3 speed gearbox and full electric lighting.

It has been restored meticulously!
