BOWN 1920 VILLIERS 269 CC TS

SOLD

ANTIQUE MOTORCYCLES - ACCESSORIES AND RELATED ITEMS

PRODUCT DESCRIPTION

The Bown manufacturing Company operated from the Aeolus Works, Summer Lane in Birmingham.

Motorcycle production ran from 1914 to 1924.

At first the popular 269 cc Villiers two stroke engine with outside flywheel was used, later on also 147 cc Villiers and four stroke JAP and Blackburne engines were employed.

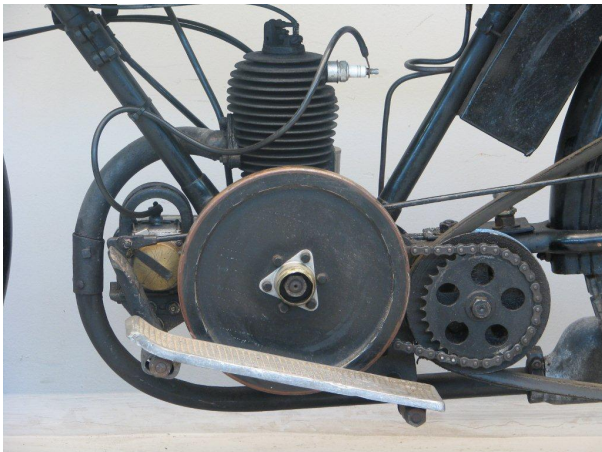

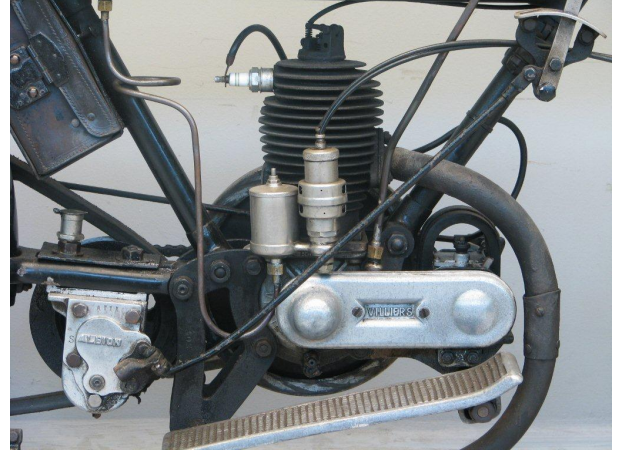

This machine is equipped with a two speed Albion gearbox, drip feed lubrication and Bosch magneto.

It is a touring model with aluminium footboards, Saxon forks and Miller lighting set.

Note the aluminium exhaust damper. An interesting detail of this rare older restoration is the tax disc in the holder with expiration date of 30th June 1930.
