## BSA 1933 M33-10 600CC 1 CYL SV SOLD

BSA 1933 595 cc side valve M 33-10 " Sloper" frame# 329040 engine# P13300

Presented in august 1926 for the 1927 season, the sloper set the BSA company on the road to market domination and success.

It was brilliant designer Harold Briggs, brought in from the Daimler car company, who designed the machine around a sporty and reliable 493 cc ohv (80×98 ) engine which inclined forward in the frame. Later on a 595 cc version was marketed with bore x stroke of 85×105 mm.

Some typical car practice features Briggs used in his design were sump lubrication ( the crankcase was

extended to form an oil reservoir holding 3 pints) and return springs within the pushrod tubes to keep the valve gear in constant touch with the cam profiles, giving exceptionally quiet operation.

The Sloper soon got a reputation as a sporting but quiet motorcycle, a real trendsetter.

Apart from the OHV models two sidevalve slopers were marketed, a 493 cc model and a 557cc model, which grew to 595 cc after some years.

The Sloper is equipped with quickly detachable rear wheel, twist grips for throttle and ignition, duplex cradle frame with forged top member and integral sidecar lugs.

This machine is an older restoration.
