PRODUCT DESCRIPTION

ca 1880 52-inch Ordinary frame # 4119

This silver-painted machine has an oval backbone, 24" semi-drop handlebars with turned grips, front brake and bell.

The pedals have wooden blocks and the tangent spokes are adjustable.

The remains of the company's non-vibrating saddle support are still in situ but a later saddle has been fitted.

This is a sound bicycle that will reward a little refurbishment.
