### PRODUCT DESCRIPTION

**DMT ca. 1904 3 HP 400cc side valve single engine# 529**

This sturdy veteran is a bit of a mystery machine to us.

It came from France to the Netherlands with a small collection of veteran cars quite a number of years ago.

Therefore we think the machine might be of French origin.

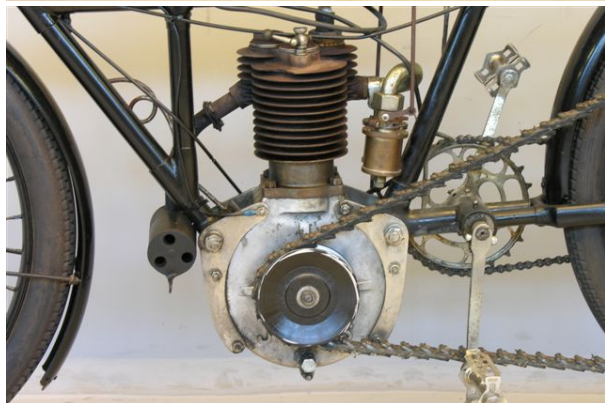

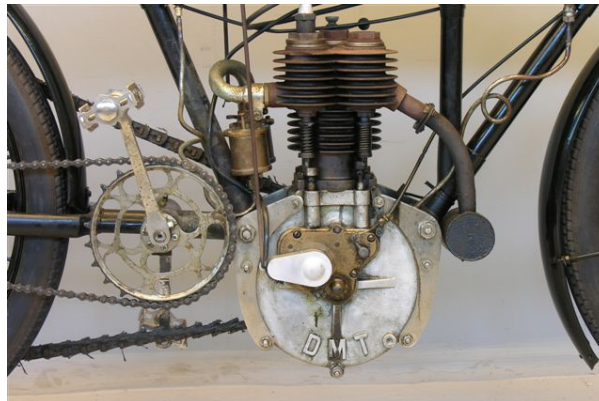

Threads are metric, there are no other visible identification points.

We have had a number of reactions from all over the world, but up to now there is no further information available on the background of this make.

The machine is complete and in unrestored condition.
