### PRODUCT DESCRIPTION

**E. Fontaine Havre    1906            ca. 350 cc    side valve            frame&engine # 131006**

This interesting early machine was made in Le Havre, probably by a Mr. E Fontaine. The frame and engine number suggests it was built in 1906, which very well fits in with the general layout of the mechanics.

Very little is known of this make: the machine is well-built and equipped with a sturdy engine with mechanically operated valves and coil ignition.

The machine is in good unrestored condition.
