ANTIQUE MOTORCYCLES - ACCESSORIES AND RELATED ITEMS

PRODUCT DESCRIPTION

FN 1933 "M90 B Luxury" 495 cc side valve single frame # 4484 engine # 2067

By 1930 the FN range had narrowed to only two models, the utility 350 side valve M 70 "Sahara" and the sporty 500 cc ohv M67.

For 1931 a new model was added to the range, a touring machine in the 500 cc class.

The model was designated M 90 and was available in Standard and Luxury versions.

The former had no electric lighting and a black enamelled petrol tank, the latter boasted Bosch electric lighting and a chromium tank with blue panels.

A bulky unit engine with bore x stroke dimensions of 85x 87 mm gives the machine a purposeful look.

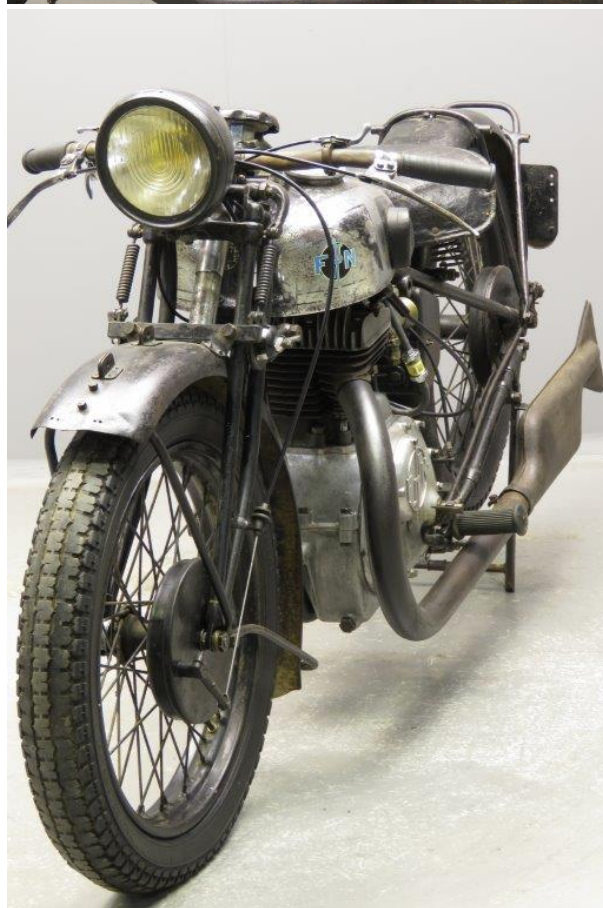

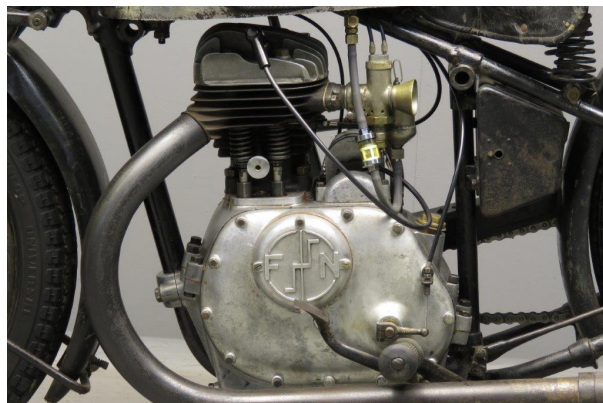

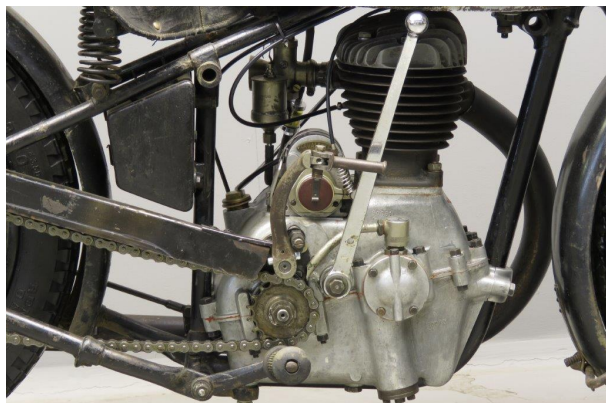

Top speed is 100 km/h and the brochure claims a petrol consumption of 3.5 litres per 100 km.

The M90 is a strong and solid construction and weighs 140 kg.

This specimen is an authentic and unrestored machine in fine shape.
