PRODUCT DESCRIPTION

Harley Davidson 1915 1000 cc IOE V twin engine no. L 13348 K

Vintage Harleys all look pretty much the same to the casual beholder, but to the enthusiast a 1915 model is outstandingly interesting: it combines some features of the veteran period such as the angular petrol tank and the pedals, with modernities as a three speed countershaft gearbox and electric lighting. What makes this particular motorcycle even more attractive is its fabulous unrestored condition: most of the original paintwork and nickel are still prominent on the machine, which must have had some very careful owners. A very authentic machine, equipped with period Corbin speedometer.
