PRODUCT DESCRIPTION

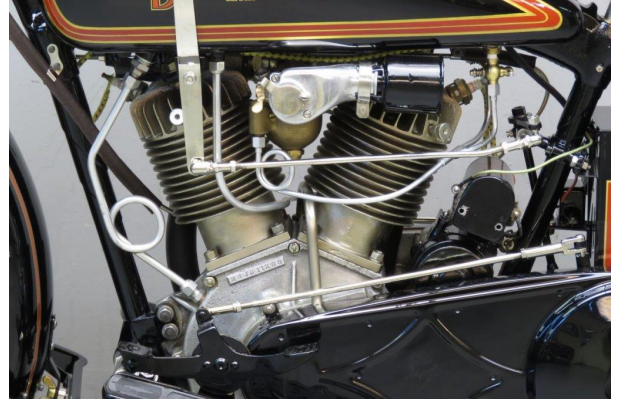

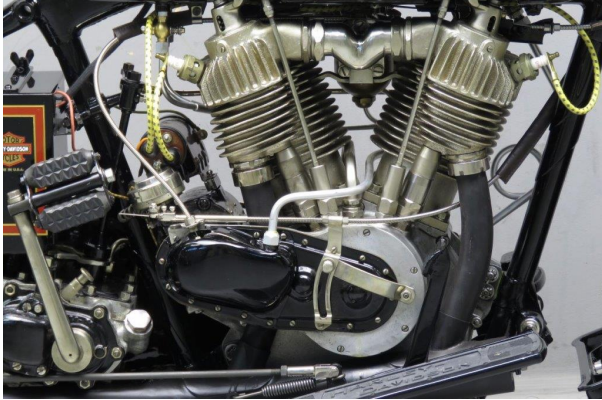

Harley-Davidson 1928 model JD 1212 cc IOE V-twin engine #28 JD 11288

For 1928, about 4300 model J machines were sold; the 1212 cc JD was much more in demand with more than 11,000 units leaving the factory. Not surprisingly perhaps, as the price difference between these models was a mere \$10.

1928 was the first year of the internal expanding front brake which was a practical innovation indeed. Some more new developments for model year 1928 were the addition of an air cleaner, larger size wheel spokes and a larger size fuel pump connected to the throttle. This good-looking machine has been restored meticulously.
