### PRODUCT DESCRIPTION

**Matchless ca. 1940 type G3 347 cc OHV frame # F 59026**

In 1936 the G3 (350) and G80 (500) models were brought out, sharing the same cycle parts and many engine parts.

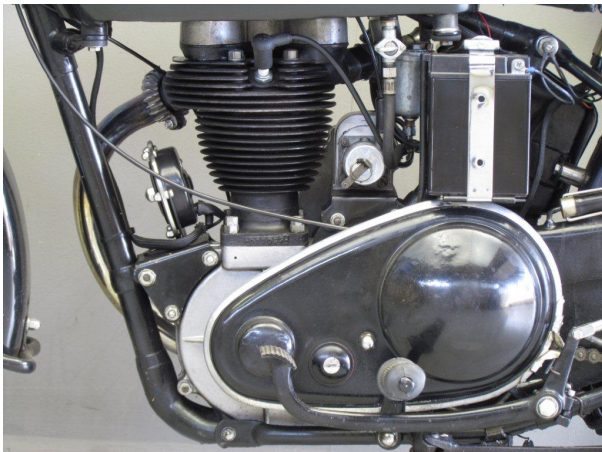

The G3 with bore and stroke dimensions of 69x93 mm produces 16 BHP @ 5200 rpm and can be considered as a sturdy and sporty machine.

Soon the range was broadened with “clubman” specifications – mainly for use in reliability trials and scrambles - the G3C “ Clubman Special” and the G4 “Super Clubman”.

The latter had a pepped up engine, high exhaust pipe and shallow section chromium plated mudguards. This G3 model comes complete with tank top instrument panel, speedometer, bum pad and pannier bag. It's a well kept older restoration and a good runner.
