ANTIQUE MOTORCYCLES - ACCESSORIES AND RELATED ITEMS

## PRODUCT DESCRIPTION

**Matchless 1965 G-15 CSR 745 cc ohv twin frame # 87728 engine #G15CS/109945**

The G-15 CSR was launched at the Earls Court Show in late 1964 and was fitted with all the extras that café racer adepts desired: lots of chrome and polished alloy, low handlebars, swept-back exhausts, matching speedometer and rev counter, fork gaiters, rear set footrests et cetera.

The 745 cc twin engine came from the Norton Atlas and developed 49 bhp@6,400 rpm.

The CSR had a top speed of about 170 km/h and weighed some 180 kg.

It was one of the last Matchless twins to be built: in September 1966 Manganese Bronze Holdings took over AMC.

After the takeover The G-15 models were manufactured in small numbers till 1968.

This sixties sports machine has been excellently restored and is eager to hit the road again!
