MOTO GUZZI 1928 500GT NORGE 500CC 1 CYL IOE 2807 SOLD

Moto Guzzi 1928 "500 GT Norge" 499 cc Inlet Over Exhaust single frame # M248 engine # 11545

Moto Guzzi has been a leading make in Italy since 1921 and it is one of the few Italian makes to become well-known abroad.

From the twenties on a number of interesting racing machines with OHC engines were developed and Guzzis became a force to reckon with in TT races.

In the 1926 lightweight TT Gherzi was credited with the fastest lap and he actually was disqualified from the second place because the spark plug he used in the race was of a different make as the one he used in the practice session. In 1935 Stanley Woods won the Lightweight TT with a spring frame single Moto Guzzi;

the next day Woods won the Senior race on a Guzzi twin!

The design of the Sport engine goes back to the early twenties.

It replaced the "Normale" type and from 1923 till 1928 the Sport was the only production Guzzi in the range.

It was finished in green with gold pin striping up to including 1927, after that the colour changed to red. The Sport has a remarkable engine with its horizontal cylinder, radial finning to enhance cooling and big but slender exposed flywheel; the idea behind this construction being to keep the engine's main bearings close together.

In 1927 Giuseppe Guzzi, elder brother of Carlo and the engineering genius of the family, designed a prototype of a touring version of the Sport model, the Grand Tourer (GT).

This machine was equipped with a very comfortable and well designed sprung frame, a swing arm with friction dampers.

The new model was dubbed "Norge" after the Italian airship that had carried out the first verified flight over the North Pole in 1926.

Giuseppe made a 6000 km long trip to the North Cape with the new GT 500 in the summer of 1928.

This feat created much publicity for the firm.

However, despite its modest price, its stability and comfort the GT sales struggled for a few years because the public was rather sceptical about this new construction.

A few years later competition successes with its successor, the GT 16, would convince the prospective buyers of the merits of the sprung frame.

Sales went markedly up then but from the original GT only 78 machines were sold between 1928 and 1930.

Consequently, this concourse condition machine with Bosch lighting system can be considered a rare bird indeed.

ABOUT YESTERDAYS

Yesterday's is a link with the past, particularly with motorcycles from the past. We are a straightforward organisation which aims at acquiring old motorcycles - in the broadest sense of the word - and making them available to enthusiasts of all kinds by means of sale.

After 35 years of experience we claim to have an extensive knowledge of the world of antique and classic motorcycles. Our field of interest ranges from pre-1900s machines till those from the thirties and forties. We have regularly been able to provide- private enthusiasts, collectors, and museums all over the world with interesting acquisitions.

We cordially invite you to visit our site and step back in the illustrious past of motorcycling.

We ship worldwide at cost

Visitors by appointment from Tuesday - Saturday 14.00h - 17.30h

We are closed Sunday and Monday.
