Moto Guzzi 1972 V7 Sport 748 cc 2 cyl ohv

The Moto Guzzi V7 Sport was one of the most charismatic and revolutionary super bikes of the seventies.

The idea for a V7 engined sports biased machine thus gained a designer who not only possessed the engineering skills, but who was also a motorcyclist so from the start this was going to be a rider's bike...no committee decision crap here!

The result? Only one of the iconic machines of the era and one of the most alluring of the classic Moto Guzzi machines.

This was a bike that spawned a legendary motorcycling legend, that took the unquestionable Guzzi racing heritage from the eagle's first 50 years and took it forward to a new generation...with style!
