PRODUCT DESCRIPTION

Motosacoche 1930 350 cc IOE MAG Model T 2A 'Triporteur' frame# 952 engine# 1C14 K 9 No. 404783

This motorized carrier is in exceptional condition: the body has been sympathetically worked over a number of decades ago, but the rest of this fascinating piece of technology is almost as it left the factory in 1930. The machine has aluminium footboards, Bosch magneto ignition and electric lighting and Sturmey Archer 3 speed gearbox.

The "Alpha" speedometer has an odometer reading of 09870 kilometres.
