**SOLD**

## ANTIQUE MOTORCYCLES - ACCESSORIES AND RELATED ITEMS

### PRODUCT DESCRIPTION

**MV Agusta 1959 Raid 250 Frame # RAID-250765\* Engine # \*MV-S-583698\***

Within Italy in the mid-1950's a 150cc and 175cc motorcycle was considered a mid-sized bike. So when the 250cc debuted at the 1956 Milan Trade show, it generated considerable interest. With a displacement of 250cc, the Raid considered a large capacity bike, able to cross the Continent with ease.

With its 4-stroke, single cylinder engine rated 14 HP at 5.600 rpm, the Raid could top out at 115 km/h.

The suspension was traditional MV; a front fork with hydraulic shocks absorbers.

For the 160 kg weight, the brakes were upgraded, with both front and rear drums measuring 220mm.

Technical Specification

Single cylinder 4-stroke

Displacement: 246,6 cc

Power / rpm: 14 HP / 5,600

Distribution: pushrod

24 mm carburettor

Gearbox: 4 speed

Double cradle tubular and pressed steel frame

Telescopic hydraulic fork

Rear suspension: swingarm with hydraulic shocks

Max. speed 115 kp/h 72mph
