PRODUCT DESCRIPTION

MV Agusta ca 1962 Liberty 49cc 1 cyl ohv Frame # MV L*812008* Engine # MV-L-811935

Aimed at youngsters not old enough to acquire a driver's license, the MV 50cc Liberty was truly a scaled-down motorcycle that looked like a bigger bike.

The relatively small single-cylinder, 4-stroke, pushrod engine produced 1,5 HP, but in a bike weighing only 58,5 Kg, it would go as fast as 40 km/h 25 mph.

This Liberty uses a 3-speed gearbox with a twist-grip gear change.

Production numbers were impressive; 5,292 units were built.

This 1962 MV Agusta Liberty has been restored very nicely and she comes with an optional head lamp fairing, so fashionable back in the sixties.

Specification

Single cylinder 4-stroke pushrod engine

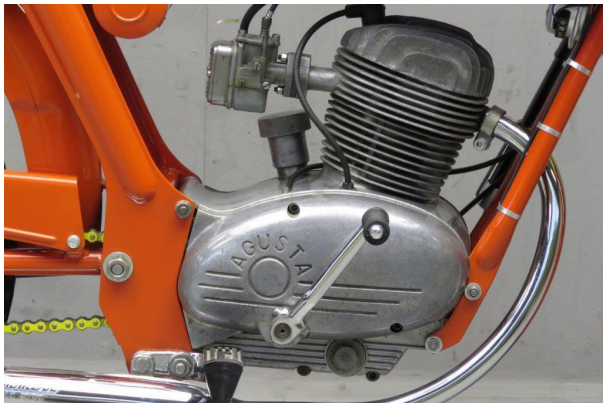

Displacement: 47,7 cc

Bore x stroke: 39 x 42 mm

Power output 1,5 HP
