PRODUCT DESCRIPTION

Norton 1964 596cc Model 99 Dominator

Introduced for 1956, the 596cc Dominator 99 twin was outwardly identical to its 500cc Dominator 88 brother. Endowed with greater power and higher gearing, which enabled it to top the magic 'ton', the 99 nevertheless retained all the excellent handling and steering characteristics associated with the Featherbed chassis.

One of the Rockers' favourites, the 99 remained essentially unchanged during the production run.

Since its restoration's completion the Domi has covered many trouble-free miles.

She features an older restoration with traces of use here and there, however she still is a shiny and well running head turner..
