ANTIQUE MOTORCYCLES - ACCESSORIES AND RELATED ITEMS

## PRODUCT DESCRIPTION

**Stylson 1930 250cc s.v. JAP frame#1970 engine#B/W98564/B**

Stylson motorcycles were manufactured in France between 1919 and 1938.

Engines and gearboxes were proprietary items; engines came from JAP, Blackburne and Staub.

This last make was a JAP produced under licence. This particular machine has a Burman 3 speed gearbox and full electric lighting.

Most of the original paintwork is still there; the transfers on the sides of the petrol tank had faded completely and these have been renewed.

A very characteristic post-vintage machine with many quality details and a good runner too!
