### PRODUCT DESCRIPTION

**Sunbeam 1935 Model 8 350 cc OHV frame # 8.505.0.687 engine # 8.503.1.877**

The first OHV production Sunbeams were listed as the model 8 (350cc) and 9 (500cc) in 1924. The model 8 with bore/stroke dimensions of 70x90 mm was an excellent sporty tourer, but stayed somewhat in the shadow of its more glamorous big brother. The model 8 stayed in production till 1931: that's to say, in 1933 it appeared again in the catalogue - virtually unchanged- and stayed till 1939.

In 1931 and 1932 the 350 cc class was catered for by a new design.

This was the completely new 344 cc Model 10, an overhead valve single, designed by Stephenson and Greenwood.

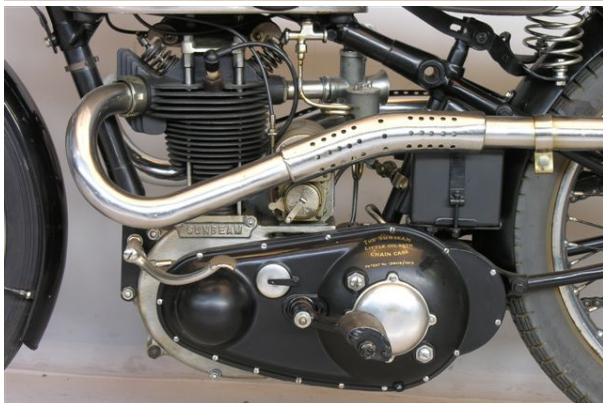

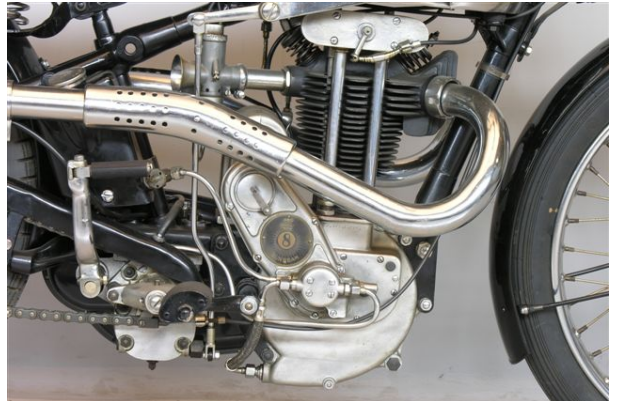

1935 was the last year of Sunbeam's own gearbox, from the 1936 model year a Burman with foot change would be employed.

This machine has been restored to sports specification.

The upswept competition exhaust pipes were a factory option.
