ANTIQUE MOTORCYCLES - ACCESSORIES AND RELATED ITEMS

PRODUCT DESCRIPTION

Terrot 1926 "Type F Tourisme" 247 cc two stroke frame # 33561

In the twenties Terrot built a line of sturdy utilitarian two stroke machines.

The company recommended these machines to customers who demanded economical transport with minimum costs and maximal reliability and comfort.

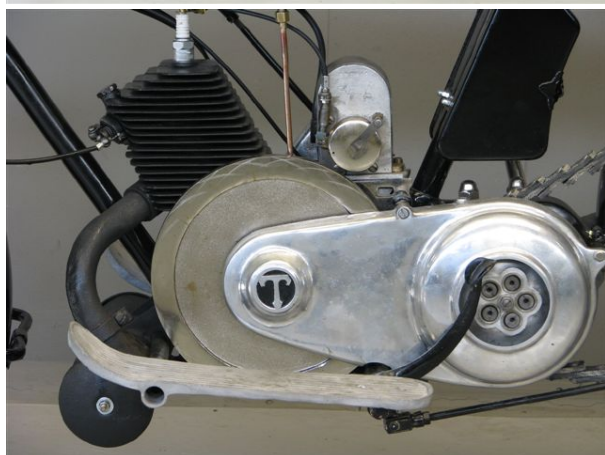

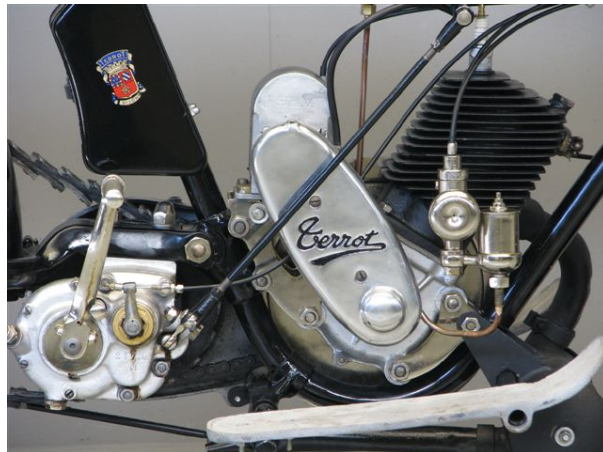

These machines were very popular in the old days and they are very practical for vintage club activities in our time.

The compact two stroke engine has a big outside flywheel and dimensions of 67x70 mm. Gearbox is Terrot's own two speed device, clutch is by multiple plates and the engine power is transmitted to the rear wheel by belt.

Note the interesting front suspension system with enclosed vertical spring.
This nicely restored machine weighs about 80 kgs and its top speed is around 60 km/h.
